

THE ASSOCIATION OF CANADIAN DISTILLERS
L'ASSOCIATION DES DISTILLATEURS CANADIENS

Who we are

The Association of Canadian Distillers (ACD) is the National Trade Association of Canadian manufacturers and marketers of distilled spirits products including Canadian Whisky, Rum, Vodka, Gin, Liqueurs and coolers.

The members of the ACD represent over 85% of domestically produced distilled spirits products sold in all provinces and territories in Canada. They also represent many major imported brands of both wines and distilled spirits products.

The ACD works with governments, their agencies and other stakeholders in the industry to develop policies and practices which will benefit both the, manufacturers and consumers of spirits products.

What we do for our members

Within the distilled spirits industry we seek to co-ordinate and facilitate relations between our members and the communities we serve. Our members subscribe to professional standards which emphasize honesty, integrity, and fair and equitable treatment for all those associated with our industry.

What we do for our community

The Association of Canadian Distillers is proud to support educational projects which focus on responsible consumption and help consumers make informed decisions about alcohol in their lives.

We encourage you to do the same. If you have a program you think the ACD would like to partner with, please let us know, either by writing to us, phoning us or visiting our website.
